PECB

PECB Certified ISO 45001 Foundation

Become acquainted with the best practices of Occupational Health and Safety Management Systems (OHSMS) based on ISO 45001

Why should you attend?

The PECB Certified ISO 45001 Foundation training course outlines the basics of occupational health and safety and provides a comprehensive overview of ISO 45001 requirements for an occupational health and safety management system (OH&SMS). By participating in this training course, you will have the opportunity to understand the different aspects of an OH&S MS based on ISO 45001, including the commitment from top management of an organization, worker participation, OH&S policy, operational planning and controls, emergency preparedness and response, performance evaluation, and continual improvement.

The successful completion of the training course is followed by an exam. If you pass the exam, you can apply for the "PECB Certified ISO 45001 Foundation" credential. An internationally recognized "PECB ISO 45001 Foundation" certificate validates your professional capabilities and demonstrates your ability to take part in an OH&S MS implementation project.

Who should attend?

- Managers/consultants seeking to get acquainted with the basic concepts of occupational health and safety
- Individuals that want to create safer and healthier workplaces in their organizations
- Individuals interested in getting acquainted with the main requirements of ISO 45001 for an OH&S MS
- Individuals interested in pursuing a career in occupational health and safety

Learning objectives

- Understand the basic occupational health and safety concepts, definitions, and approaches
- Get acquainted with the ISO 45001 requirements for an occupational health and safety management system
- Develop a general understanding of how ISO 45001 requirements could be applied in an organization

Course agenda

DURATION: 2 DAYS

- Day 1: Introduction to occupational health and safety management, OH&S MS, and clauses 4–6 of ISO 45001
- Day 2: Clauses 7–10 of ISO 45001 and the certification exam

Prerequisites

- There are no prerequisites to participate in this training course.

Examination

DURATION: 1 HOUR

The PECB Certified ISO 45001 Foundation exam fully meets the requirements of the PECB Examination and Certification Program (ECP). It covers the following competency domains:

- Domain 1: Fundamental concepts and principles of occupational health and safety management and OH&S MS
- Domain 2: ISO 45001 requirements for an OH&S MS — Clauses 4 to 10

For specific information about exam type, languages available, and other details, please visit the List of PECB Exams and the Examination Rules and Policies.

Certification

After successfully completing the exam, you can apply for the "PECB Certified ISO 45001 Foundation" credential. For more information about ISO 45001 certifications and the PECB certification process, please refer to the Certification Rules and Policies.

General information

- Certification fees are included in the exam price.
- PECB will provide training material of over 200 pages of information and practical examples.
- An attendance record worth 14 CPD (Continuing Professional Development) credits will be issued to participants who have attended the training course.
- In case of exam failure, the candidate can retake the exam once for free within 12 months of the initial exam date.
