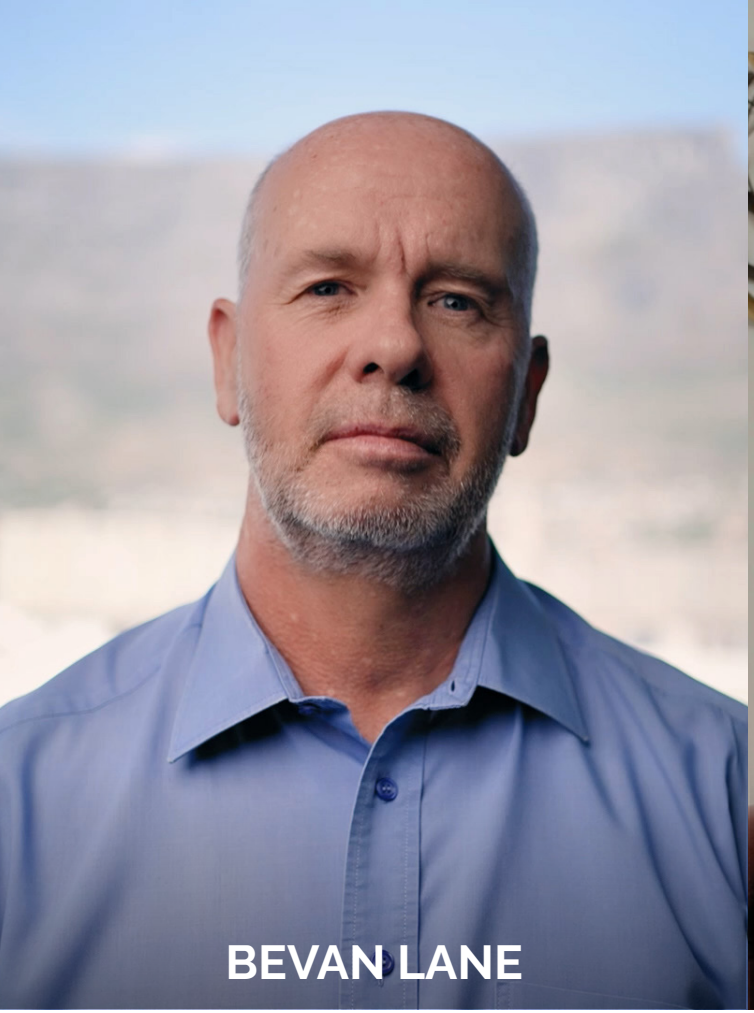
PECB

As technological developments continue to increase day by day, the way we teach and learn has also changed. The use of new and more efficient tools for delivering knowledge has also advanced.

PECB eLearning started as an attempt to adapt to the ever-changing nature of online education. PECB has created this platform to facilitate the delivery of training courses and make our products accessible from different environments, including the comfort of one's own.

The ISO 37001 Lead Implementer eLearning training course is designed to enable attendants to implement an anti-bribery management system (ABMS) based on the requirements of ISO 37001 and establish a framework for a sustainable management of actual or potential bribery situations.



Meet the Trainers

Our eLearning training courses have been catered to meet each individual's needs and have been designed with the aim of transcending spatial and temporal restrictions. Each eLearning training course is delivered by experienced Trainers from all around the world, and is divided into several video sections and subsections. Videos contain animations to support what the trainer is lecturing — the animations correspond to the sections provided in the traditional mode of training. To keep our candidates engaged, we have incorporated quizzes into our eLearning training courses.

How does the ISO 37001 Lead Implementer eLearning experience look like?

Our ISO 37001 Lead Implementer eLearning training course is delivered on the KATE app. It becomes available after you log in using your PECB account.

In addition to having the training course content in the video format, you can also access the regular training course materials format, structured in training course days, with the additional files available in an editable format (depending on the training course, the case study, exercises, and exercises correction key files will also be available).

In addition to the lectures and the training course materials, quizzes have been incorporated to increase the interactivity of our training courses.

- ✓ Take the training course
- ✓ Access the materials on KATE
- ✓ Enter the exam at your most convenient date, time, and location via PECB Exams

How can you benefit from the PECB eLearning experience?

Our eLearning training courses have been designed to meet the needs of diverse learners who have different learning preferences and/or limited time to attend a training course session.

Here are some of the main benefits of the PECB eLearning experience:

- Both the training course and the examination are conducted fully online. Thus, all you need is an electronic device, internet access, and the KATE application.
- The training course is available 24/7, so you can adapt your study pace, time, and location to your schedule instead of having to adapt your schedule to the training course.
- The unlimited access allows you to go back to any section of the training course as needed.
- Every training course consists of several video sections.
- This was done with the sole purpose of making the information easy to receive and process.

Simply put, the eLearning training courses are a convenient way to effectively enhance your professional skills. Your virtual classroom now is KATE!

Why should you attend?

Persons of malicious intent continually seek to sophisticate and improve their methods of wrongdoing, including bribery. In addition, the increasingly complex nature of modern day enterprises may sometimes put good-willing people into high-pressure situations and force them into taking or receiving bribery. ISO 37001 provides a structured methodology for organizations to combat such negative phenomena, and organizations have been finding this standard increasingly useful. This has increased the demand for ISO 37001 certification and, in turn, the demand for ISO 37001 implementers.

This training course aims to help an individual become competent in establishing, managing, and continually improving an anti-bribery management system (ABMS) based on ISO 37001 by using up-to-date industry best practices.

After attending the eLearning training course, you can take the exam. If you successfully pass, you can apply for a "PECB Certified ISO 37001 Lead Implementer" credential, which demonstrates your ability and practical knowledge to implement an ABMS based on the requirements of ISO 37001.
